BITS 2018 Tasks

EXPLORE

[TASK ID - 0024E010]

GITHUB COURSE 04

DESCRIPTION

- This is the second task of GitHub course. If you have not completed 'GITHUB COURSE 03' task, you must complete it before this. For this task you have to learn Git basics. For this complete, Codecademy course for Git [https://bit.ly/1LgxqhC]. Finally, send us some screenshots about what you learned and your final result page through an email to bits.acicts@gmail.com "Please learn them slowly without a rush. Read all the instructions given in these lessons. Then you can be an expert of Git and Github. If you rush, you will be stuck in the future tasks. If you have any questions, contact us. We are here to help you!" Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack if you haven't. (optional) [https://slack.com/]
- Complete, Codecademy course for Git. [https://bit.ly/1LgxqhC]
- Send us some screenshots as for the above description.
