

BITS 2018 Tasks

DESCRIPTION

DESIGN

[TASK ID - 0007D004]

CREATE A 3D MODEL OF A CLAY POT

- For this task, you have to create a 3D model of a clay pot. You can use any 3D designing tool. Your pot might be only a sketch; no issue. Finally, you must save your project in Google Drive and send us a link of sharing through an email [bits.acicts@gmail.com] using the form in main website. Also send us the GitHub account link (optional). Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack if you haven't. (Optional) [<https://slack.com/>]
- Design a 2D short animation cartoon.
- Upload it to Google Drive.

WORKING WITH US

If you have any questions related to this. You can ask it on our Slack Group, on our portal [portal.acicts.io] or visiting ACICTS in the school time.

Join our Slack group using the below link or by scanning the QR code below.
