CREATE A TEXT TO
MORSE PROGRAM

DESCRIPTION

- For this task, you have to create text to Morse converting program. You can use any programming language (GUI and Console both accepted). Finally, you have to save your project in Google Drive and send us a link of sharing through an email[bits.acicts@gmail.com] using form in main website. Send us the links for your GitHub account (optional). Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack (optional). [https://slack.com/]
- Design a text to Morse program.
- Upload it to Google Drive.
