

# BITS 2018 Tasks

## DESCRIPTION

---

### DESIGN

[TASK ID - 0018C005]

CREATE A TOSS  
PROGRAM

- Create a simple a program that randomly chooses between Head and Tails. Creating a GUI (Graphical User Interface) is much appreciated in this instance. Any type of language is acceptable. Finally, you have to save your project in Google Drive and send us a link of sharing through an email[bits.acicts@gmail.com] using form in main website. Send us the links for your GitHub account (optional). Surf on Google and use BITS-Help page for more help.
- 

## STEPS

---

- Make an account on Slack if you haven't. (optional) [<https://slack.com/>]
  - Create the program.
  - Upload it to Google Drive.
- 

## WORKING WITH US
