

DESIGN [TASK ID - 0019E005]

EXPLORE ABOUT PROGRAMMING HISTORY

DESCRIPTION

 Explore about history of the programming through the Google, Wikipedia... Create a word document or blog with important facts that you found from exploring in your own words. Don't copy and paste directly. Change it your own words and ideas. Finally, you have to save your project in Google Drive and send us a link of sharing or direct link (for a blog) through an email[bits.acicts@gmail.com] using form in main website. Send us the links for your GitHub account (optional). Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack if you haven't. (optional) [https://slack.com/]
- Create the document or blog.
- Upload it to Google Drive or send us a direct link.

WORKING WITH US

If you have any questions related to this. You can ask it on our Slack Group, on our portal [portal.acicts.io] or visiting ACICTS in the school time. Join our Slack group using the below link or by scanning the QR code below.
