

BITS 2018 Tasks

DESCRIPTION

CODE

[TASK ID - 0035C011]

CREATE A DRAWING TOOL

- From this task you have to make drawing tool like MS paint which has facility user to design, edit and save graphics. More facilities gain more points. Make a setup file and readme file for how to install after finishing the software. Finally, upload setup, screenshots of making(codes) and working screen, readme file into a same folder. Send us the link of sharing through an email to bits.acicts@gmail.com Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack if you haven't. (optional) [<https://slack.com/>]
- Create the software.
- Upload and send us the link as above description.
