CODE

[TASK ID - 0036C012]

MAKE A MICROBIT PROJECT

DESCRIPTION

- From this task you have to make a project using online Microbit [link for online Microbit - https://makecode.microbit.org/#] You don't need any real circuit. You can make your own project with virtual microbit board and tools. Make a something special. More facilities gain more points. Finally, click on share and send us the link of sharing through an email to bits.acicts@gmail.com Surf on Google and use BITS-Help page for more help.

STEPS

- Make an account on Slack if you haven't. (optional) [https://slack.com/]
- Create the project.
- Share your project as the description.
